

STUDENT DRIVING POLICY

Driving to Cortland Christian Academy is a privilege and as such may be suspended by the school administration or revoked by the school board. No other Cortland Christian Academy student may ride to or from school without permission slips, which will be kept on file, from the student driver's parents as well as from the parents of the rider. Students must ride in school-provided transportation to all school-sponsored activities unless prior arrangements have been approved by the administrator. Cooperation with all guidelines established by the school administration regarding student driving must be met and failure to comply with these guidelines may result in the suspension or revocation of my driving privileges.

Applications for driving privileges may be obtained from the administrator at the office.
